

ANNOUNCEMENT FROM BABE RUTH

All leagues chartered and insured for the 2020 season should go into the Babe Ruth League web site and edit their number of teams to one (1) team in each division in which you currently have teams rostered. This will assure you of maintaining your chartered and insured status.

If your league does conduct league play, once cleared by local authorities, you will need to edit the web page information to the actual number of teams participating in each division before beginning play.

If your league does not conduct regular league play, the league will be either be refunded or credited for the fees paid for your chartering and insurance. The decision regarding whether it is to be a refund or a credit will be made by Babe Ruth League at a later date.
